Version 6.1 - PUBLIC USE

Bloom provides access to a unique marketplace for the public sector to procure all categories of professional services.

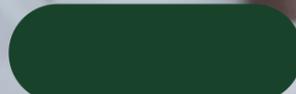

Bloom Procurement Services deliver the NEPRO³ solution on behalf of NEPO (North East Procurement Organisation).

We provide a full end-to-end solution for the procurement, contract management and payment of all professional services. Recognised as one of the fastest growing marketplaces for buying services in the UK, we specialise in bringing together a community of buyers and suppliers to help the public sector buy and manage services in a compliant, efficient and effective way.

We aim to give the best choice for our clients and open up more business opportunities for suppliers, big or small.

We are a trusted partner to organisations across the whole of the UK public sector including local and central government, blue light services, NHS trusts, housing associations, education and not-forprofit. Bloom have successfully delivered over £1.5 billion projects with social value at the heart of what we do, enabling brilliant outcomes today that build a better tomorrow.

The following pages will provide you with a list of all of our public sector clients who are accessing the NEPRO³ framework through our marketplace solution.
