

Supplier Accreditation Becoming Accredited with Bloom

First, you need to register on Pro-Vide 2; our cloud-based project management system that supports our end-to-end process. You will then go through our accreditation process, which is a pre-qualification assessment and gives buyers the assurance that your business has achieved an industry standard of clearance.

Completing the registration for accreditation takes around 30-45 minutes and provides us with all the information we need. Once submitted we will respond within 5 days to confirm accreditation or ask for further information.
